

1 Little Scotland Road STANLEY

5 6 10

"Bloomfield" c.1866

This is a rare opportunity to secure a piece of Australian Gold mining history on the Stanley Plateau. "Bloomfield" an iconic property set in beautiful northeast Victoria adjacent to historic Beechworth offers a discerning buyer with the opportunity to owner-occupy or continue with a well-established short-term accommodation option whilst remaining in residence.

The charming and magnificent red brick home build by gold discoverer Joshua Bigelow has stood the test of time. It features a grand hallway entrance, welcoming parlour and formal dining room complete with French doors. They are accompanied by four large bedrooms with their own en-suites.

The wide verandas are an intrinsic component of the home ensuring summer shade and protection during the cooler month. An Austrian hydronic system ensures this historic home remains comfortable during winter. A 4kw solar system supports power bills.
